FOR RECEIVABLES MANAGEMENT LAW FIRMS

Anyone can take a payment. Few understand receivables management.

Legal receivables aren't retail payments. Regulation F, judgment interest, statutes of limitation, trust accounting, court-ready documentation. Hyventur's team has lived all of it, and that understanding is the difference between a vendor and a partner.

We know the rules

Compliance-first by design. Regulation F, FDCPA, and PCI DSS built into every workflow, not bolted on.

We know the work

Built for legal receivables and trust accounting, not adapted from a retail checkout.

We know the stakes

Recovery, reputation, and your standing with the bar ride on every payment. We treat them that way.

> *"Understanding your practice isn't a feature. It's the whole point."*
